

Environmental Statement

We at Motion Control Products are committed to maintain and continually improve our systems to protect the environment and be ambassadors for greener choices in a working environment.

We do this by:

- Operating in a manner which aim to minimise the environmental impact on our surroundings and maintain compliance with current legislation and best practice whilst ensuring a balance between economic, environmental, and social issues.
- Working closely with other contract parties to develop good environmental practices and solutions, become energy efficient and make use of sustainable materials wherever we are able to;
- Review our environmental policy regularly against our performance and set challenging objectives and targets, such that our environmental performance improves continually.
- Targeting our investment in technology and equipment such that it helps lower the environmental impact of our operations.
- Use of sustainable resources and continued re-use, recycling, and waste minimisation throughout all areas of our business in order to reduce the demand on the environment's natural resources.
- Ensuring that our policy is understood by all staff through training awareness and directing all employees and sub-contractors to comply with its requirements and procedures.
- Ensure the necessary resources are available to meet the requirements of the policy

Implementation, monitoring and review of this Environmental Statement

This document takes effect from 1st January 2023. The Managing Director has overall responsibility for implementing and monitoring this statement, which will be reviewed annually or as and when amendments are required, following its implementation.
